Self-taught full-stack developer from the Netherlands with more than 25 years of experience in web development. Specialised in Javascript / Typescript and PHP and SQL.

Work experience

Ksyos October 2022 - Present | Senior full-stack developer

- **Authorization system** — Added a new authorization system to give more fine-grained access control for healthcare professionals and Ksyos employees throughout whole the medical platform
- **Patient privacy** — Made the medical platform conform to the [NEN 7513](#) patient privacy standard, to ensure patients get full insight into whom is accessing their medical data by implementing developer friendly and scalable access logging throughout the platform
- **SAML SSO** — Set up multiple SAML SSO's to give healthcare professionals seamless access to partner platforms
- **Medical services** — Successfully developed and maintained medical services with tight deadlines
- **Testing** — Added a testing utility function to create dummy users with specific permissions to simplify writing unit and integration tests

SkillsTown March 2019 - September 2022 | Lead full-stack developer

- **Interoperability** — Implemented [LTI 1.3](#) which allowed us to contract the biggest customer in the history of the company
- **SAML SSO** — Automated the [SAML SSO](#) process which reduced the development time from 8 hours to 10 minutes
- **OpenID Connect SSO** — Added [OpenID Connect](#) capability to the platform
- **Frontend** — Rewrote an unstable [Svelte](#) application to a stable [React](#) one
- **Security** — Located and fixed multiple [XSS vulnerabilities](#)
- **Upgrade** — Upgraded the legacy platform from PHP 5 to 7
- **LRS** — Implemented full [LRS](#) capability in two existing platforms (PHP & C# .NET)
- **WooCommerce** — Automated the ordering process between the learning platform and the [WooCommerce](#) webshop

Monversa Web Development July 2013 - February 2019 | Owner & full-stack developer

- **CMS** — Designed and developed my own Content Management System
- **Servers** — Setting up and maintaining Centos/Ubuntu, Apache/Nginx, PHP and MySQL servers
- **Wordpress** — Built multiple Wordpress sites for small local businesses
- **Plugins** — Created several custom Wordpress webshop plugins

Innowijs June 2018 - December 2018 (part-time) | Full-stack developer

- **Interactive tablet tour** — Developed an interactive tablet tour for children visiting a museum located in The Hague
- **Online courses** — Added custom interactivity to [Articulate Storline](#) online courses
- **Moodle** — Designed and developed a modern [Moodle](#) theme
- **Library plugin** — Created a custom online library Wordpress plugin
- **Charity site** — Built a Wordpress site for a charity organisation
