Introduction

I'm a **self-taught senior full-stack developer** from the Netherlands. I have been developing websites and webapps for **more than 20 years**. I was 12 years old when I became interested in programming and realised I could turn my hobby into my profession. Being a developer means that I'm **constantly learning** and improving my skills. In my free time I like working on my own projects and I do this **on a daily basis** (see my [Github page](#)). Most of the time I work **independently** but I also like to share what I know and work together with my teammates.

Work

SkillsTown March 2019 - Present | Lead full-stack developer

- Implemented [LTI 1.3](#) which allowed us to contract the biggest customer in the history of the company
- Automated the [SAML SSO](#) process which reduced the development time from 8 hours to 10 minutes
- Added [OpenID Connect](#) capability to the platform
- Rewrote an unstable [Svelte](#) application to a stable [React](#) one
- Located and fixed multiple [XSS vulnerabilities](#)
- Upgraded the legacy platform from PHP 5 to 7
- Implemented full [LRS](#) capability in two existing platforms (PHP & C#.NET)
- Automated the ordering process between the learning platform and the [WooCommerce](#) webshop

Monversa Web Development July 2013 - February 2019 | Owner & full-stack developer

- Designed and developed my own Content Management System
- Setting up and maintaining Centos/Ubuntu, Apache/Nginx, PHP and MySQL servers
- Built multiple Wordpress sites for small local businesses
- Created several custom Wordpress webshop plugins

Innowijs June 2018 - December 2018 (part-time) | Full-stack developer

- Developed an interactive tablet tour for children visiting a museum located in The Hague
- Added custom interactivity to [Articulate Storline](#) online courses
- Designed and developed a modern [Moodle](#) theme
- Created a custom online library Wordpress plugin
- Built a Wordpress site for a charity organisation
